

**Auto Electrician
Campbellfield Location
Full Time**

Tickford Racing is an elite team in the Virgin Australia Supercars Championship. The team races four Ford Mustang entries and is responsible for the design, manufacture, build and maintenance of each of its race cars. The team is housed in a large bespoke facility based in Melbourne's outer northern suburbs.

An exciting opportunity has arisen for an Auto Electrician to join our team to ensure the optimum performance of all electrical and electronic equipment. This includes maintaining and improving performance of the car electrical, data and radio systems.

Responsibilities include however are not limited to the following:

- Ensuring the reliability of all car electric systems
- Maintenance and development of car & team electronic, electrical and Hardware systems
- Availability & performance of Data, AV, Radio & Electronic Systems at the race circuit
- Fault diagnosis and problem solving- Troubleshooting electrical & hardware systems
- Wiring harness building
- Attend race meets and test days as required

To be considered for this great opportunity, you will need to exhibit your experience as an Auto Electrician, and demonstrate the following:

- Strong commitment to health and safety in the workplace
- Relevant Auto Electrical Trade Certificate (essential)
- Proactive approach to your work
- The ability to work effectively as part of a team
- The capability to work well under pressure and meet deadlines
- Self-motivation
- The aptitude to work independently with high attention to detail

You will be joining a world-class sporting team which has the passion and drive for success where the drive for performance is relentless, offering new challenges every day.
